

KID STARTUPPER

Entrepreneurship starts at a younger age!

28 stunning entrepreneurship lessons with the use of our innovative educational platform KidStartupper.com

The goal of our platform is to help children unfold their talent and showcase their skills in entrepreneurship through their very young age. Moreover, to discover any talents that might have on a particular professional field, or even to love things that might have not been known to them until now.

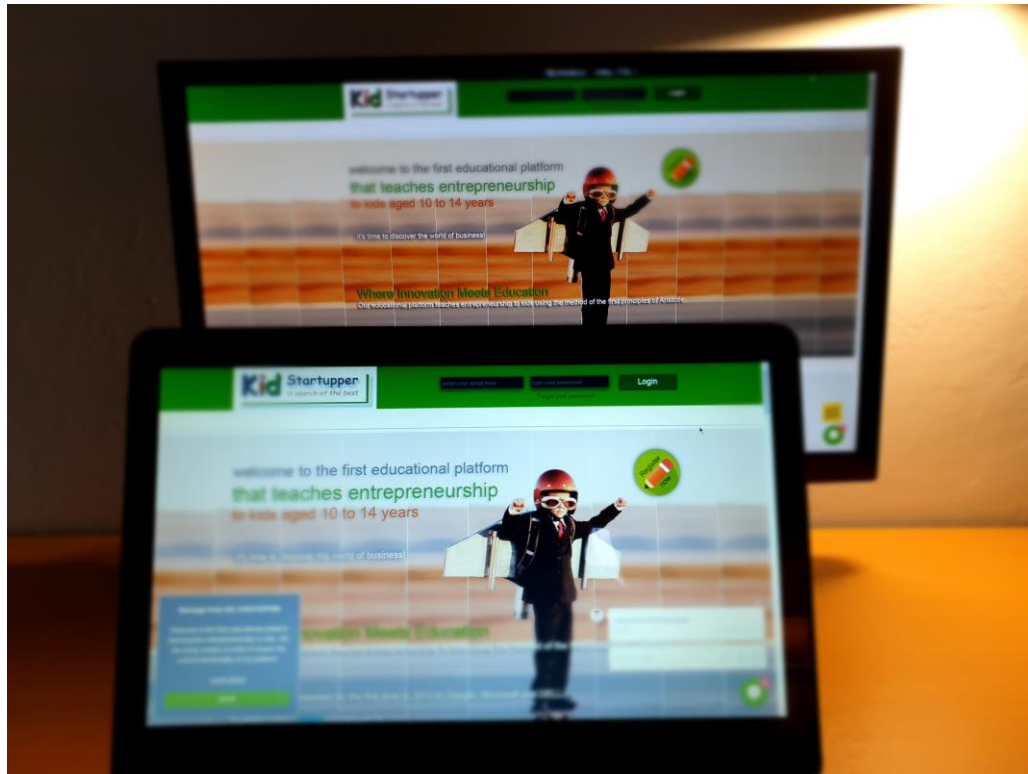

The innovative educational platform that teaches entrepreneurship to kids aged 10-14 years.

Kid Startupper, is an online educational platform that aims to develop children's creativity, imagination and craftsmanship on entrepreneurship. Our platform aims to teach kids both **entrepreneurship** and **e-business**. Our educational platform operates after the students' enrolment in the respective course attendance classes that are completed in almost 9 months.

Our innovative educational platform has been inspired by conclusions at global conferences on new technologies in education (**WEBIT, WEB SUMMIT, TED Talks, ENTREDU**) and has also been presented in the **5th International Conference for the Promotion of Educational Innovation (EEPEK 2019)**.

Through this innovative educational platform students will have the opportunity:

- To choose their "favorite profession" and live an experimental simulation on it, gaining at the end an experiential knowledge on it.
- They learn that entrepreneurship nowadays requires the use of new technologies and realize by themselves the importance of this issue.
- Learn how to create their first "complete professional resume".
- They learn to work on their favorite profession by creating their first digital virtual business.
- They learn to look for partnerships for their business.
- They learn to search for and identify dynamic executives that will help them grow their business.
- They learn to search and discovering knowledge and ideas before deciding what they really want to do (Method of the First Principles).
- They learn to share the knowledge they have gained and exchanging them with their classmates (Ethos).

HOW DOES IT WORK

1. We offer to your school, or your educational institution, **completely free of charge** the **trial version** of our platform for 1 month. During this period, you will have the opportunity to test and evaluate our educational platform, as well as the curriculum that comes with it.
2. Create a class (or classes), with up to 15 kids maximum, at your school or your educational institution.
3. Teachers and educators are trained by us (via teleconference), or through our representatives (classroom training). For everything you need, we are by your side every day.
4. Once the class is created, students subscribe to the **KidStartupper.com** platform and start the lessons (in trial version). Students download e-books from the platform. All courses are applied by students on the platform. For the trial period of a month, you can perform 4 lesson of 1 hour each (a lesson every week).
5. A lab with desktop PCs or laptops is required to use our platform. Students can download the e-book to their home PC, or even better to their Tablets.
6. The presence of a school active board, or video projector, is an important aid for teachers in the classroom, especially in the case of our educational platform.

ABOUT KID STARTUPPER

Our innovative educational platform was first presented at the Google, Microsoft and DELL Technological giants, in 2014 at WEBIT and WEB SUMMIT international business conferences in new technologies. The most advanced programming languages and IT tools were used in order for us to design and create our platform (the process of study, research, construction and the checks that were carried out took about 4 years). Awarded in 2018 at the "Education Leaders Awards" held at the University of Western Attica and presented at the 5th International Conference for the Promotion of Educational Innovation (EEPEK 2019).

ENTREPRENEURSHIP IN EDUCATION

Entrepreneurship is the new trend in **primary and secondary education**. Many schools around the world teaches nowadays entrepreneurship to kids, in order to help them be prepared for their real life.
